Objective:

Passionate early childhood educator with a strong interest in integrating technology into the learning environment and introducing programming concepts to young learners. Experienced in fostering creativity and social development through innovative, child-centered teaching strategies. Seeking a role where I can inspire and empower children through engaging, age-appropriate programming education.

Education:

2021 – 2024 **Bachelor of Early Childhood Education**, Fayoum University, Fayoum, Egypt.
Kindergarten Teachers Preparation Department.
Grade: Excellent with honors.

Experience:

April 2025 (Current) **Children's Programming Teacher, CodeIQ Academy, Online, Egypt.**

- Teach programming to many children using Scratch 3 & JR.
- Teach programming languages such as HTML & CSS to many children.
- Prepare presentations and simplified educational materials to explain basic programming concepts to children.
- Preparing educational curricula for children and course maps on Scratch 3, HTML, and more.

January – March 2025 **Programming teacher for children, Mega Minds Academy, Fayoum, Egypt.**

- Teach programming to children using Code.org and Scratch.
- Created interactive activities to develop logical thinking and problem-solving.
- Simplified programming concepts through games and small projects.
- Volunteered to teach programming to a child using Scratch 3 to develop my teaching skills and experiment with simplified teaching methods for children.

Extra-Curricular Activities:

July 2024 – Present **Volunteer, University Center for Career Development, IT department, Fayoum University, Fayoum, Egypt.**

- Registered the data of students applying for training courses and workshops from the American University platform.
- Participated in organizing the workshops offered by the center.
- Participated in preparing the fresh graduate program offered by the center for graduates of Fayoum University.
- Participating in organizing the "Be Prepared" initiative offered by the Center.
